GAS DISCHARGE TUBES

Bourns to Discontinue Long Life Heavy-Duty 3-Electrode Gas Discharge Tubes

Model 2026-xx-A Series

Riverside, California – June 27, 2019 – In accordance with ongoing product life-cycle management procedure, effective immediately, Bourns has transferred the Model 2026-xx-A series Long Life Heavy-Duty 3-Electrode Gas Discharge Tube to End of Product Life status. A lack of sales, diminishing demand and unique component supply shortage necessitates this action.

Model 2026-xx-A1, the recommended replacement product series, is available for your consideration. [Model 2026-xx-A1](#) offers reduced overall length, diameter and a lower profile center electrode. The length of the center lead is shorter at 0.85 mm. See diagram below.

Obsolete part numbers and recommended replacement parts are listed on the next page.

Should you have any questions or need additional information, please feel free to contact [Customer Service/Inside Sales](#).
