Change to Standard Box Quantities for Product Shipped in Trays

PCN: 31901

Published: 2016-04-20

Type: Material Change - Shipping Media

Description: Starting on the **Product Ship Date** specified at the bottom of this PCN, Micron will begin packaging Micron Branded Components in full tray quantities. This will change the standard box quantity to a multiple of the full tray quantity.

On this date, new orders will need to be placed using the new standard box quantities. For a period of time, orders may be fulfilled using a combination of previous or new standard box quantities as we work through current packaged inventory. Existing quantities on purchase orders placed before the **Product Ship Date** will not need to be changed. This change does not affect our current tape and reel standard box quantities.

For our customers and Micron, this change will improve storage efficiencies, reduce shipping costs, optimize handling efficiencies, and aligns with industry standard practices.

Reason: Better Align With Industry Standard, Improved Product Quality and Reliability, Manufacturing Efficiency

Product Affected: All Micron branded components shipped in trays

Affected Micron Part Number Recommended Replacement Customer Part Number

*Materials that have been ordered are in **bold**.

Method of Identification: Box quantity is shown on the standard shipping label

Micron Sites Affected: All Sites

Product Ship Date: 2016-07-19

NOTE: Per JEDEC Standard JESD46-C Section 3.2.3; lack of acknowledgment of this PCN within 30 days constitutes acceptance of change.
