

Product Change Notice

Issue Date: 25 November 2011

Change Type:

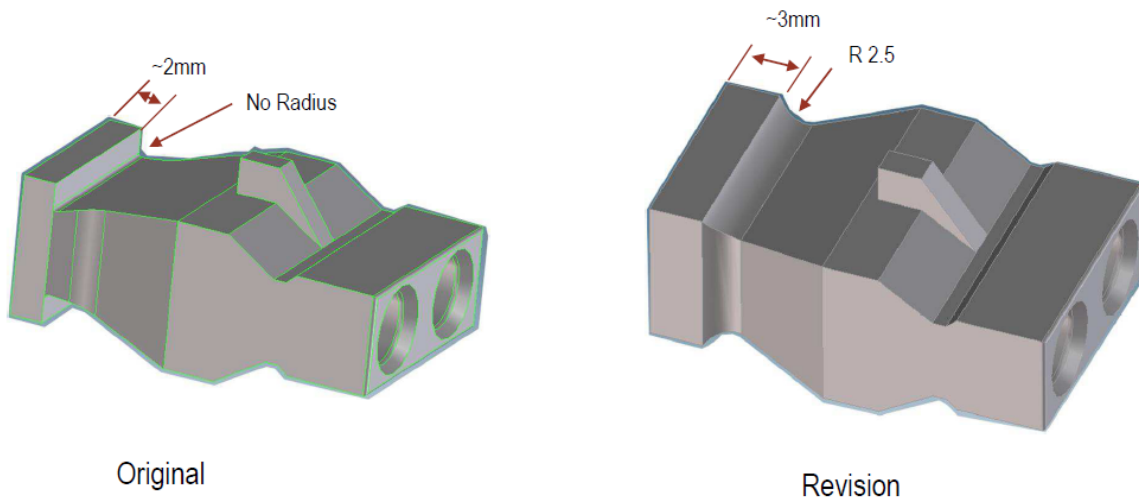

Design related: minor design change of port-plug

Parts Affected:

Port-plug used for AFBR-5978Z, QFBR-5978Z

Description and Extent of Change:

Additional radius at port-plug, details see below pictures. The port-plug material is unchanged.

Reasons for Change:

Additional radius will improve ruggedness of port-plug and therefore improve the mechanical stability and reliability.

Effect of Change on Fit, Form, Function, Quality, or Reliability:

Only a visual noticeable change in the design of the port-plug. No effect on the de-plugging force of the port-plug or on product electrical performance.

Effective Date of Change:

Product shipments using this change will begin on 16, January 2012, (WW1203) or later. Timing of shipment of the changed part will vary depending on customer demand and inventory levels.

Recommended Action to be Taken by Customer:

- 1) Please return any response as soon as possible, but not to exceed 30 days.
- 2) Sample requests must specify the PCN # stated above and shall be placed by your Avago Technologies Field Sales Representative through the Avago Technologies FOMFGS ordering system.

Qualification Data:

No product-qualification is needed. A use test to ensure proper function of the port-plug will be performed. Results on this test can be provided by on or around 29.December 2011 upon request.

For any questions specific to this PCN, please contact christian.hundsberger@avagotech.com.

These changes have been reviewed and approved by Avago Technologies engineers and managers per Avago Technologies procedure: Change Control and Customer Notification, A-5962-6052-80.

Please contact your Avago Technologies field sales engineer or Contact Center (<http://www.avagotech.com/contact/>) for any questions or support requirements. Please return any response as soon as possible, but not to exceed 30 days.
