Product Change Notification	04/12/2022
Product Line	Rabbit Operator Interface, RabbitCore RCM2000 Series, RabbitCore RCM3000 Series, SBC

Audience	Partners and Customers

Product Notice	A change of temperature ratings is required on legacy Rabbit product. An audit of the Bill of Materials uncovered a component that did not match the temperature ratings of the device. The specifications will be updated to reflect the commercial temperature range for the component as set forth below by product SKU. We have not been notified of any issues relating to temperature limits and there are no changes to the products other than to update temperature limits in the specifications. Because of the updated temperature limits set forth below, it is possible the Ethernet transmission rate could be lower than expected at temperatures lower than the newly published temperature limits.
