Change of binary marking code position for DFN1010B-6 (SOT1216) package

Information Notification

Change of the binary marking code (date code and PIN1 indication mark) position and the omission of the vendor code for DFN1010B-6 (SOT1216) package. Vendor code not needed because DFN1010B-6 (SOT1216) production is only in one site NXP APG (Assembly Plant Guangdong).

[] Test Location

Why do we issue this Information Notification

To improve the PIN 1 indication mark recognition.

Identification of Affected Products

Changed products can be identified by date code and the changed date code and PIN 1 indication mark position.

Impact

No impact to the products` functionality anticipated.

Data Sheet Revision

A new datasheet will be issued

Disposition of Old Products

Existing inventory will be shipped until depleted
