REASON FOR CHANGE:

Due to our continuous improvement efforts, Eaton has achieved a higher AC Voltage rating for the 20A, 25A, 30A and 40A amp ratings of the 1025HC product family. The 1025HC family can now be applied in more applications due to this increase in voltage rating.

EXPECTED INFLUENCE ON QUALITY, RELIABILITY, AND PERFORMANCE:

There will be no effect on the quality, reliability, or performance. There are no changes to form, fit, and function of the devices other than the voltage rating.
