

October 5, 2022

To whom it may concern,

In accordance with Mexican laws and regulations and the applicable permits Molex holds, Molex will no longer be able to sell components to our customers. Components are items that are not transformed into finished goods (i.e., cordsets or receptacles). Molex will be updating our systems to reflect that this part is no longer sellable as a stand-alone component and will be cancelling all open orders.

Thank you for your cooperation in Molex's commitment to compliance.

Regards,

Michelle Reynolds
Group Manager, Automation Connectivity
Molex Industrial Solutions Business Unit
