

Issue Date: July 14th, 2020

Dear Valued Customer,

This notice is to inform of changes in the supply chain of select item(s) you have purchased from Littelfuse.

Description of the Change:

- Littelfuse will be insourcing production of the terminal used on the attached finished goods from a legacy Littelfuse vendor to our Muzquiz, MX operation.

Reason for The Change:

- The legacy vendor that we will be exiting no longer supports the production and commercial requirements to supply to Littelfuse. The operations to create this terminal exist and are an active part of Littelfuse's production methods today.

Effective Date of the Change:

- This transition is targeted as a running change, effective no later than the end of July 2020.

What You Need to Do:

- As we near this transition, we are building a stock of components to prevent interruption to supply finished goods. As we exhaust this stock, we will begin fulfilling orders with finished goods according to the above.
- Terminals will be produced from new tooling, but there will be no impact the fit, form, function, or delivery of your finished goods.

For any questions, please feel free to reach out to either your Littelfuse Customer Service Representative or Inside Sales Representative.

We appreciate your continued partnership and business.

Sincerely,

Zachary Naughton
Global Product Manager
Littelfuse Commercial Vehicle Products
