

LEDiL

PRODUCT CHANGE NOTIFICATION

Date: January 14, 2022
PCN: PCN LEDIL 181

Subject: PCN 181 – Material change in the Linda-24 product family

Description: As part of our continuous research and improvement processes, and to ensure the best possible quality and availability LEDIL has changed the diffused PMMA blend in LINDA-24 family.

Time line: New material version will automatically replace the old one, when the old stock has been depleted.

Changes: The material change does not affect the functionality of the products. Optical performance remains on similar level as the current material blend. New material blend is already successfully used in LINDA-40 family.

Please see or request necessary material datasheets from our website:
