**25<sup>th</sup> April 2018**

**Obsolescence of HSDL-3208**  
***Notification Date : 25<sup>th</sup> April 2018***

Dear Customer,

Liteon Technologies regret to announce the obsolescence of the HSDL-3208, IRDA® Data Compliant Low Power 115.2 kbit/s Infrared Transceiver solution.

There would be no replacement part number for the HSDL-3208.

The affected part numbers are the HSDL-3208-025 and the HSDL-3208-S25.

This obsolescence would take effect from 1<sup>st</sup> May 2018, with the Last Time Buy by the 31<sup>st</sup> Oct 2018 and Last Time Ship by 30<sup>th</sup> April 2019. All Last Time Buy orders would be based on an NCNR (Non Cancellation, Non Returnable) condition.

With this announcement of the obsolescence of the HSDL-3208, we would also need to institute a price increase of 10%, to be aligned with supplier imposing a 20% price increase on their raw materials. This price increase would be effective for orders received from 1<sup>st</sup> May 2018 (onwards). Any orders received before the 1<sup>st</sup> May 2018, we would still honor our last quoted price.

We value you as an important customer and we are truly sorry for this unforeseen circumstance.

If you have any questions or concerns, please do not hesitate to contact your local Lite-On contacts.

Yours truly,  
Freddy Ho  
Product Manager  
Integrated Sensor Division
